

## Purpose Statement

### 600/4243/6 ProQual Level 3 NVQ Diploma Occupational Work Supervision (Construction) (QCF)

#### Overview

This qualification provides the opportunity for individuals who supervise others in a relevant construction occupational area to demonstrate their competence.

Achievement of this qualification provides a candidate with proof of competency across a broad range of issues relating to construction site management. These include, Health and Safety, planning, risk assessment and resource management. These generic competencies are enhanced by achieving a number of optional units relating to specific on site skills.

Successful candidates can apply to hold a Construction Skills Certificate Scheme supervisors card, making them eligible for employment in supervisory roles within the UK construction industry.

#### Learning Outcomes

To achieve the qualification the following mandatory units will be covered:

- Confirming Work Activities and Resources for an Occupational Work Area in the Workplace
- Developing and Maintaining Good Occupational Working Relationships in the Workplace
- Confirming the Occupational Method of Work in the Workplace
- Implementing and Maintaining Health, Safety and Welfare in the Workplace
- Co-ordinating and Organising Work Operations in the Workplace

Candidates must also complete two supervisory-related optional units which are relevant to their work role.

You will work with an assessor to complete a portfolio of evidence that confirms you have met the requirements of the qualification.

There are no entry requirements or specific skills needed to undertake this qualification.
